

# Non Clinical Toxicologist

**Ref: PSL4017**

Slough

**Attractive Salary**

Commensurate with experience

Working with a leading BioPharmaceutical company within their Immunology Centre of Excellence, you will be responsible for the non clinical development of monoclonal antibody (mAB) drug candidates. You will provide non clinical support to global project teams from early research through to First in Man, Proof of Concept, launch and beyond.

Reporting to the Senior Director, Drug Safety, you will be a key contributor and member on multidisciplinary projects teams representing the Non Clinical Development Department.

We are seeking an experienced and expert non clinical toxicologist with outstanding expertise within GLP studies, specifically within the area of Biologics and Monoclonal Antibodies.

Working within cross functional teams you will provide expert toxicology interpretation and where required, issue resolution. You will have a high level of autonomy and influence, with the ability to make a significant contribution within a rapidly growing Biopharmaceutical company that has an exceptional pipeline. Working with world class scientists you will have broad drug development experience, the ability to influence and be passionate about high quality science and a desire to share your expertise with others. Key responsibilities will include:

- Non clinical development of drug candidates, mainly mABs
- Support global project teams
- Provide non clinical support from early research through to marketing authorisation
- Monitor and manage GLP studies outsourced to CROs
- Provide expert toxicology advice and interpretation
- Ability to champion projects with a multi-disciplinary approach
- Prepare and review regulatory documentation
- Represent the company in meetings with regulatory authorities

You will enjoy a high level of autonomy and responsibility within a dynamic and scientifically talented team, ideally bringing an excellent track record in academic and applied / commercial research into these key disease areas, bringing vision, ambition and creativity.

This is an exciting opportunity to join a highly innovative business, within a leadership capacity, in a highly visible role where the long term career prospects are exceptional.
