

Managing Consultant, USA

Ref: PSL4032

Attractive Salary Package

Commensurate with experience

Join a highly successful business and leading **Life Science Consultancy**, delivering high quality solutions to make their clients' businesses safer, more quality focused, compliant and ultimately more sustainable and successful.

Reporting to the Practice Leader you will play a crucial role in the continued strategic development and direction of the business, delivering quality solutions and enhancing your and the company's **Subject Matter Expertise**.

You will have responsibility for designing, developing and leading key delivery projects as the primary client contact, providing insight and initiative. You will lead, coach and mentor project team members from both a project consulting perspective and as a domain expert.

Our client has over 25 years' experience successfully providing specialist consulting services within:

-  Patient Safety
-  Medical Affairs
-  Benefit and Risk Management
-  Quality and Compliance
-  Labelling
-  Medical Governance

With an unenviable reputation for delivering innovation and quality solutions of the highest standard, the business continues to grow, with an excellent mix of new clients and repeat business, driving the requirement for additional experienced experts.

You will be joining a unique culture, one that is highly collegiate, encourages a partnership approach and rewards both innovation and quality. With a flexible and open approach you will have every opportunity for progression, within a business that prides itself on growing and developing talent from within.

You will need to have a track record of consulting excellence, ideally with relevant domain expertise within the Life Science sector and a desire to pursue personal, professional and company development. As well as contributing to client delivery projects, you will be expected to take a lead in the development of new service offerings and thought leadership initiatives.

You will be comfortable with contribution to the strategic vision of the business with outstanding people and process skills and the ability to inspire others. You will need strong communication skills, the ability to influence, to lead others and to share your experience and knowledge, whilst always seeking to improve your own technical expertise and consulting reputation.

This is an exciting opportunity to join a highly successful global business, within an influential capacity, in a highly visible role where the long term career prospects are varied and exceptional.
