

R&D Director, Consulting

Ref: PSL4070

London, UK

Attractive Salary

Commensurate with experience

At a time where the costs of R&D are increasing and the number of compounds achieving regulatory approval is decreasing, the Pharmaceutical and Lifesciences industry faces many challenges.

Our client is a global leading professional services company, one that has enjoyed many years of unprecedented success supporting Global Fortune 500 companies, with a presence in 157 countries and with 750 office locations. Their global consulting business offers expertise within:

-  Strategy design
-  Operating model design
-  Process design
-  Culture change
-  Value proposition design
-  Engagement & communications
-  Leadership alignment

Global demand is increasing for innovative, effective, cost-effective personalised medicines.

Regulators, payers, health care providers and patients are demanding greater transparency and value for money.

As **Director, R&D Consulting** within the Pharmaceutical and Lifesciences practice you will play a key role in further developing the practice, increasing the client footprint and supporting the continued evolution of the practice's thought leadership and white papers.

The **Director, R&D Consulting** will enjoy broad responsibilities, including but not limited to:

-  Leading a team of 5 – 10 consultants
-  Developing and managing new business
-  Responsibility for key client relationships and accounts
-  Providing strategic advice and direction to clients
-  Overseeing projects to ensure that they are on time and budget
-  Supporting the continued development of the practice and thought leadership

This key role will support the continued growth of the practice and the **Director, R&D Consulting** will be highly visible and enjoy outstanding rewards for success with a clear opportunity for personal growth and professional progression.

You will need to have an outstanding academic and industry career to date, a strong understanding of R&D, clinical development, drug development and experience leading global strategic transformation projects. You will also need to be confident, articulate, comfortable sharing your thoughts and ideas at “C-Level”, with the ability to listen to others yet to have the courage of your convictions, as appropriate.

Help shape the future of drug development through innovation, thought leadership, passion and a desire for success.

If you are interested in this role, please visit our website www.pharma-search.co.uk or telephone Dr Grant Coren in strictest confidence on +44 (0) 1442 345 340. Alternatively, please send your CV / Resume to grant@pharma-search.co.uk.
