

Senior Director / Vice President Advisory Services

UK / EU

Ref: PSL4103

Attractive Salary Package

Commensurate with experience

An outstanding opportunity to join a highly successful, ambitious and growing **Life Science Consultancy**, dedicated to the provision of high quality advisory and consulting services within **Pharma R&D** through their industry expertise and knowledge.

Reporting to the **Global Head of Advisory Services** you will play a crucial role in the continued strategic development and direction of the European business, delivering quality solutions, leading a dynamic and energised team and contributing to the global vision.

As **Senior Director / Vice President Advisory Services** you will have responsibility for designing, developing and leading key delivery projects as the primary client contact, whilst also being responsible for the identification of new clients and the management of existing relationships.

Current expertise covers a number of critical areas of drug development and commercialisation:

- Patient Insights & Real World Data
- Quality & Compliance
- Regulatory Affairs
- Research & Development Operations
- Life Science Policy
- Clinical Operations
- Pharmacovigilance & Drug Safety
- Market Access
- Portfolio Project & Resource Management
- Medical Affairs

The **Senior Director / Vice President Advisory Services** will lead, coach and mentor a team of 25+ consultants and analysts, delivering new business and with responsibility for managing all client deliverables.

You will be joining a dynamic culture, one that is highly collegiate, encourages a partnership approach both internally and with clients and rewards innovation and quality.

You will be required to possess a track record of consulting excellence, ideally with relevant R&D domain expertise within the Life Science sector and a desire to pursue personal, professional and company development.

As well as contributing to business development and client delivery, you will be expected to take a lead in the development of new service offerings and thought leadership initiatives.

You will be expected to add to the strategic vision of the business with outstanding people and consulting skills and the ability to inspire others. You will need strong communication skills, the ability to influence, to lead others and to share your experience and knowledge, whilst always seeking to improve your own technical expertise and consulting reputation.

This is an exciting opportunity to join a highly successful and growing global business, in influential capacity, in a highly visible role where the opportunity will be rewarding and highly stimulating.
