

# Medical Director – South East, UK

Ref: PSL4167 - MD

**Attractive Salary**  
Commensurate with experience

**A unique leadership opportunity within an exceptionally successful, dynamic, and remarkably ambitious global business. Having achieved unbridled success over recent years you can help shape the next phase of their growth, development and success.**

-  **Do you have the ability to lead, develop and inspire others?**
-  **Are you ready to play a key role in leading and shaping a growing business?**
-  **Do you have a desire to ensure clinical studies of the highest quality and calibre?**
-  **Do you have the vision and experience to lead exceptional individuals?**

Our client is a highly dynamic, entrepreneurial and innovative venture capital backed business, that through outstanding leadership, investment and quality of service, has achieved exceptional international growth, becoming an established global market leader.

Their products and services are designed to improve the successful delivery of clinical trials for the benefit of patients, clinicians, payers and sponsors.

Their continued expansion in Europe, through acquisition and in conjunction with the opening of new “green field” clinical research sites is creating exciting and challenging roles that will allow you to significantly influence the growth and success of the business. Working closely with multi-disciplinary teams internationally and globally you will help to deliver outstanding trials to help bring innovative medical treatments to patients.

As **Medical Director** you will work closely with the sites and **Principal Investigators** to develop key therapeutic expertise, excellence in patient care and help to drive the growth and success of the business, at a site, national and international level, working closely to deliver the global medical strategy.

The **Medical Director** responsibilities will center around ensuring the execution, planning and management of clinical studies to the highest levels across the region, aligned with the corporate medical vision. Working and communicating closely with clients, study directors, principal investigators and team members you will provide cross-functional, strategic leadership for the operation of key business functions, including but not limited to:

-  Medical direction and strategy
-  Medical expertise and scientific feasibility
-  Adherence to global Medical vision
-  Safety and well-being of all study participants
-  Operational Excellence and Process Improvement

As **Medical Director** you will support the company in the execution of the short and long term vision, plans and directives by implementing judgement, vision, management, and leadership in line with the company’s mission and core values.

**This is a unique opportunity to contribute, shape, lead and influence within a highly entrepreneurial and successful business, making a genuine difference to the lives of patients.**
